# *Eternal Honeymoon, Forever Love*

LET THE 'THE SUN' AND 'THE MOON' WITNESS YOUR FOREVER LOVE.

5 DAYS AND 4 NIGHTS FROM \$1,880 P.P.

**Once upon a time, a Dictator's Paradise**

At the point where the sun and the moon meets, lines Taiwan's only six star water-front property, The Lalu Sun Moon Lake, blurred between land and water, heaven and earth, past and present, and far from the sight and hectic pace of modern life.

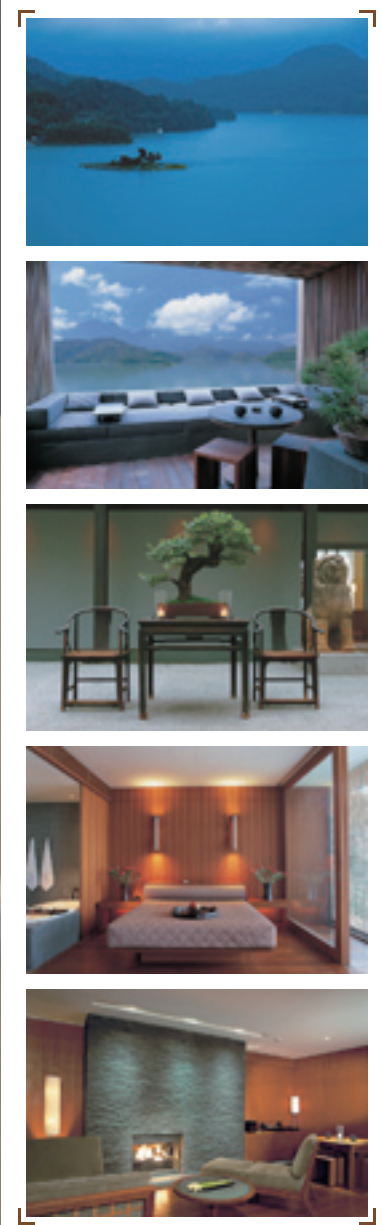

Made from stone, iron, wood and glass, the Lalu seems to have evolved from mountain itself. The design is modern but traditional – adhering to Zen principles of simplicity, naturalness and "Yugen", a shadowy darkness providing mystery and thoughtful silence.

Designed by Australian gifted architect Kerry Hills, The Lalu blends harmoniously into its surrounds. Every moment you spend at The Lalu provide lifelong memories – whether standing on the spacious balcony while listening to the birds' singing in the morning, enjoying a cup of tea at the sun lounge, taking a short walk along the lakeside path or taking in views of Sun Moon Lake at sunset.

Chiang Kai Shek, the founder, national hero and former military leader of Taiwan spent lots of his time at Sun Moon Lake entertaining heads of state and plotting to back to China. Chiang's summer house is all but gone now, damaged by the 1999 earthquake, but one building remains on the site, now home to the magnificent The Lalu.
